Santa Ana, CA | (714) 833-6049 | [linkedin.com/-natalylopez/](https://www.linkedin.com/in-natalylopez/) natalyisalopez@gmail.com

EDUCATION

University of California, Berkeley

Class of 2027

BA in Cognitive Science and Data Science - Emphasis in Business and Industrial Analytics

Honors: 2nd place Haas EGAL X WIB D.E.I Case Competition, CIEE UNHCR Student Challenge Semi-finalist, Harvard WeCode Technology Fellow, Regents & Chancellors Scholar, Yardi Scholar, National Security for Language for Youth Scholarship, BASIS AI Policy Fellowship

PROFESSIONAL & LEADERSHIP EXPERIENCE

ASUC OCTO

Berkeley, California

UI/UX Engineer

January 2025-Present

- Collaborated with cross-functional product teams of developers, UX designers, and stakeholders to deliver user-centered web experiences for over 20,000+ UC Berkeley students, improving accessibility and engagement.
- Developed responsive front-end features using React.js, JavaScript (ES6), HTML5, and CSS3, converting Figma wireframes and prototypes into high-quality, production-ready web interfaces integrated with Git-based workflows.

Building Blocks of Cognition Laboratory

Berkeley, California

Research Assistant

January 2025-Present

- Led the design and execution of live behavioral and neuroimaging experiments, including fMRI and eye tracking, successfully collecting and analyzing data from 100+ participants to advance understanding of reasoning, memory, and goal-directed behavior.
- Applied statistical analysis and machine learning techniques in Python (pandas, NumPy, scikit-learn, matplotlib) to process complex behavioral and educational datasets; built regression models to extract actionable cognitive and academic insights.

Datack Inc.

Tokyo, Japan

Data & Healthcare Market Research Intern

May 2025-August 2025

- Conducted comprehensive market and business research on 30+ global health and cognitive science startups, mapping industry trends and competitive landscapes to support Datack's strategic initiatives.
- Developed a data-driven startup evaluation framework combining quantitative metrics and qualitative assessments to support strategic partnership decisions.
- Delivered 10 technical presentations to international teams and external partners, translating complex research findings into actionable business insights.

PROJECTS

GeoTech Risk AI

Berkeley, California

Founder/Developer

August 2025-Current

- Developing GeoTech RiskIQ, an AI-driven platform delivering real-time analytics for technology supply chain risk and disruption prevention using machine learning models and natural language processing.
- Leading a cross-functional team and partnered with industry stakeholders to pilot the platform, quantifiably improving supply chain resilience by up to 40% and enabling proactive, industry-wide risk mitigation strategies.

Haas EGAL X WIB D.E.I Case Competition | 2nd place

Berkeley, California

Team Captain

October 2025

- Architected an AI-powered reverse mentorship platform leveraging natural language processing and recommendation systems to improve generational diversity and professional development outcomes.
- Designed matching algorithms optimizing mentor-mentee pairing based on skills, interests, and learning goals, increasing engagement metrics by 35%.

CIEE UNHCR Student Challenge | Semi-finalist

Berkeley, California

Team Captain/Data Analyst

December 2024-May 2025

- Coordinated comprehensive proposal development for youth programs supporting 800,000+ displaced Venezuelan refugees, including impact modeling, sustainability analysis, and cost-benefit projections.
- Applied data science methods to analyze demographic data and program effectiveness metrics, informing evidence-based policy recommendations.

RELEVANT SKILLS

- **Programming:** Python, SQL, C++, Java, JavaScript/HTML/CSS
- **Frameworks & Libraries :** React.js, React Native, NumPy, pandas
- **Machine Learning & AI:** Statistical Modeling, Regression Analysis, Natural Language Processing, Predictive Analytics, Algorithm Design, Data Visualization
